EDUCATION

Jamia Hamdard University, New Delhi

2024 – 2027

Bachelor of Computer Applications (BCA), CGPA: 8.1

PROJECTS

Droply – Full Stack File Management Platform

Demo

Next.js, React, TypeScript, Tailwind CSS, Clerk, PostgreSQL, Drizzle ORM, ImageKit

- Built a full-stack cloud file management platform supporting uploads, folder organization, search, starring, and trash recovery.
- Implemented secure authentication and user-specific file access using Clerk.
- Developed folder hierarchy, pagination, starred items, and trash management system.
- Integrated ImageKit for optimized file uploads and cloud storage management.

BlinkAI – AI Chat Application

Demo

Next.js, TypeScript, Groq API, Tailwind CSS, React Markdown

- Developed a stateless AI chat application with real-time response streaming.
- Implemented typing indicators, message animations, and auto-scroll behavior.
- Integrated Groq API for fast and optimized LLM responses.
- Designed a clean, premium UI focused on minimal and fast interactions.

Web Automation Tool

GitHub

Node.js, Puppeteer, JavaScript

- Built a browser automation tool to simulate multi-step user workflows.
- Implemented automated login, form filling, and DOM interaction handling.
- Used asynchronous JavaScript for handling dynamic web pages.
- Created reusable automation scripts for repetitive tasks.

ResumeAI Tailor – AI Resume Optimizer

Demo

Next.js, TypeScript, Tailwind CSS, Groq API

- Built an AI-powered resume optimization platform that customizes resumes according to a target job description.
- Implemented PDF resume upload, text extraction, AI analysis, and ATS compatibility scoring.
- Integrated Groq LLM to generate optimized resume content and actionable improvement suggestions.
- Developed downloadable optimized PDF generation with a modern responsive user interface.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, OOPs
- **Web Development:** HTML, CSS, Node.js, React.js, JavaScript, Next.js, Automation, Web Scraping
- **Databases:** SQL, MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Puppeteer
- **Core Concepts:** Object-Oriented Programming (OOP), REST APIs, Authentication, Database Design

TECHNICAL EXPERIENCE

Built full-stack web applications using Next.js, React, TypeScript, PostgreSQL, and modern SaaS architecture. Developed AI-powered applications through LLM integration, resume optimization workflows, ATS analysis, and real-time response systems. Implemented authentication, database integration, cloud storage, PDF processing, and responsive UI design. Used Git and GitHub for version control and followed modern software development practices.

CERTIFICATIONS

- NPTEL Cloud Computing
